

VOLUME 1

„HORECA CHAIRS” - sitting and fitting made to measure Your business !

„HORECA CHAIRS” is a firm created by people with over thirty years of experience in commercial interior designs.

It specializes mainly in designing and manufacturing seats and other furniture, as well as planning and marketing for HO.RE.CA. business activities.

We adress our offer espetially to the owners of bars, coffee shops, restaurants, pizza restaurants, baker's shops, confectioner's shops, ice-cream shops, self-service restaurants, deli shops, hotels, shopping centres, supermarkets and many others.

Over the years „HORECA CHAIRS” has gained a great expirience in planning, designing and arranging commercial premises.

Thanks to our highly qualified staff you can relax and be sure that the administrative, trade and technical assistance is constantly and continuously guaranteed.

Our offer is personalized and can meet the expectations of every customer!

# HOW TO USE THIS CATALOG

Following catalog has been divided into 3 main parts:

**INDOOR  
OUTDOOR  
FABRICS & FINISHINGS**

At the beginning of each part You can find an index with chapter division. Each chapter has its own number and color corresponding with the margin color of the pages related.

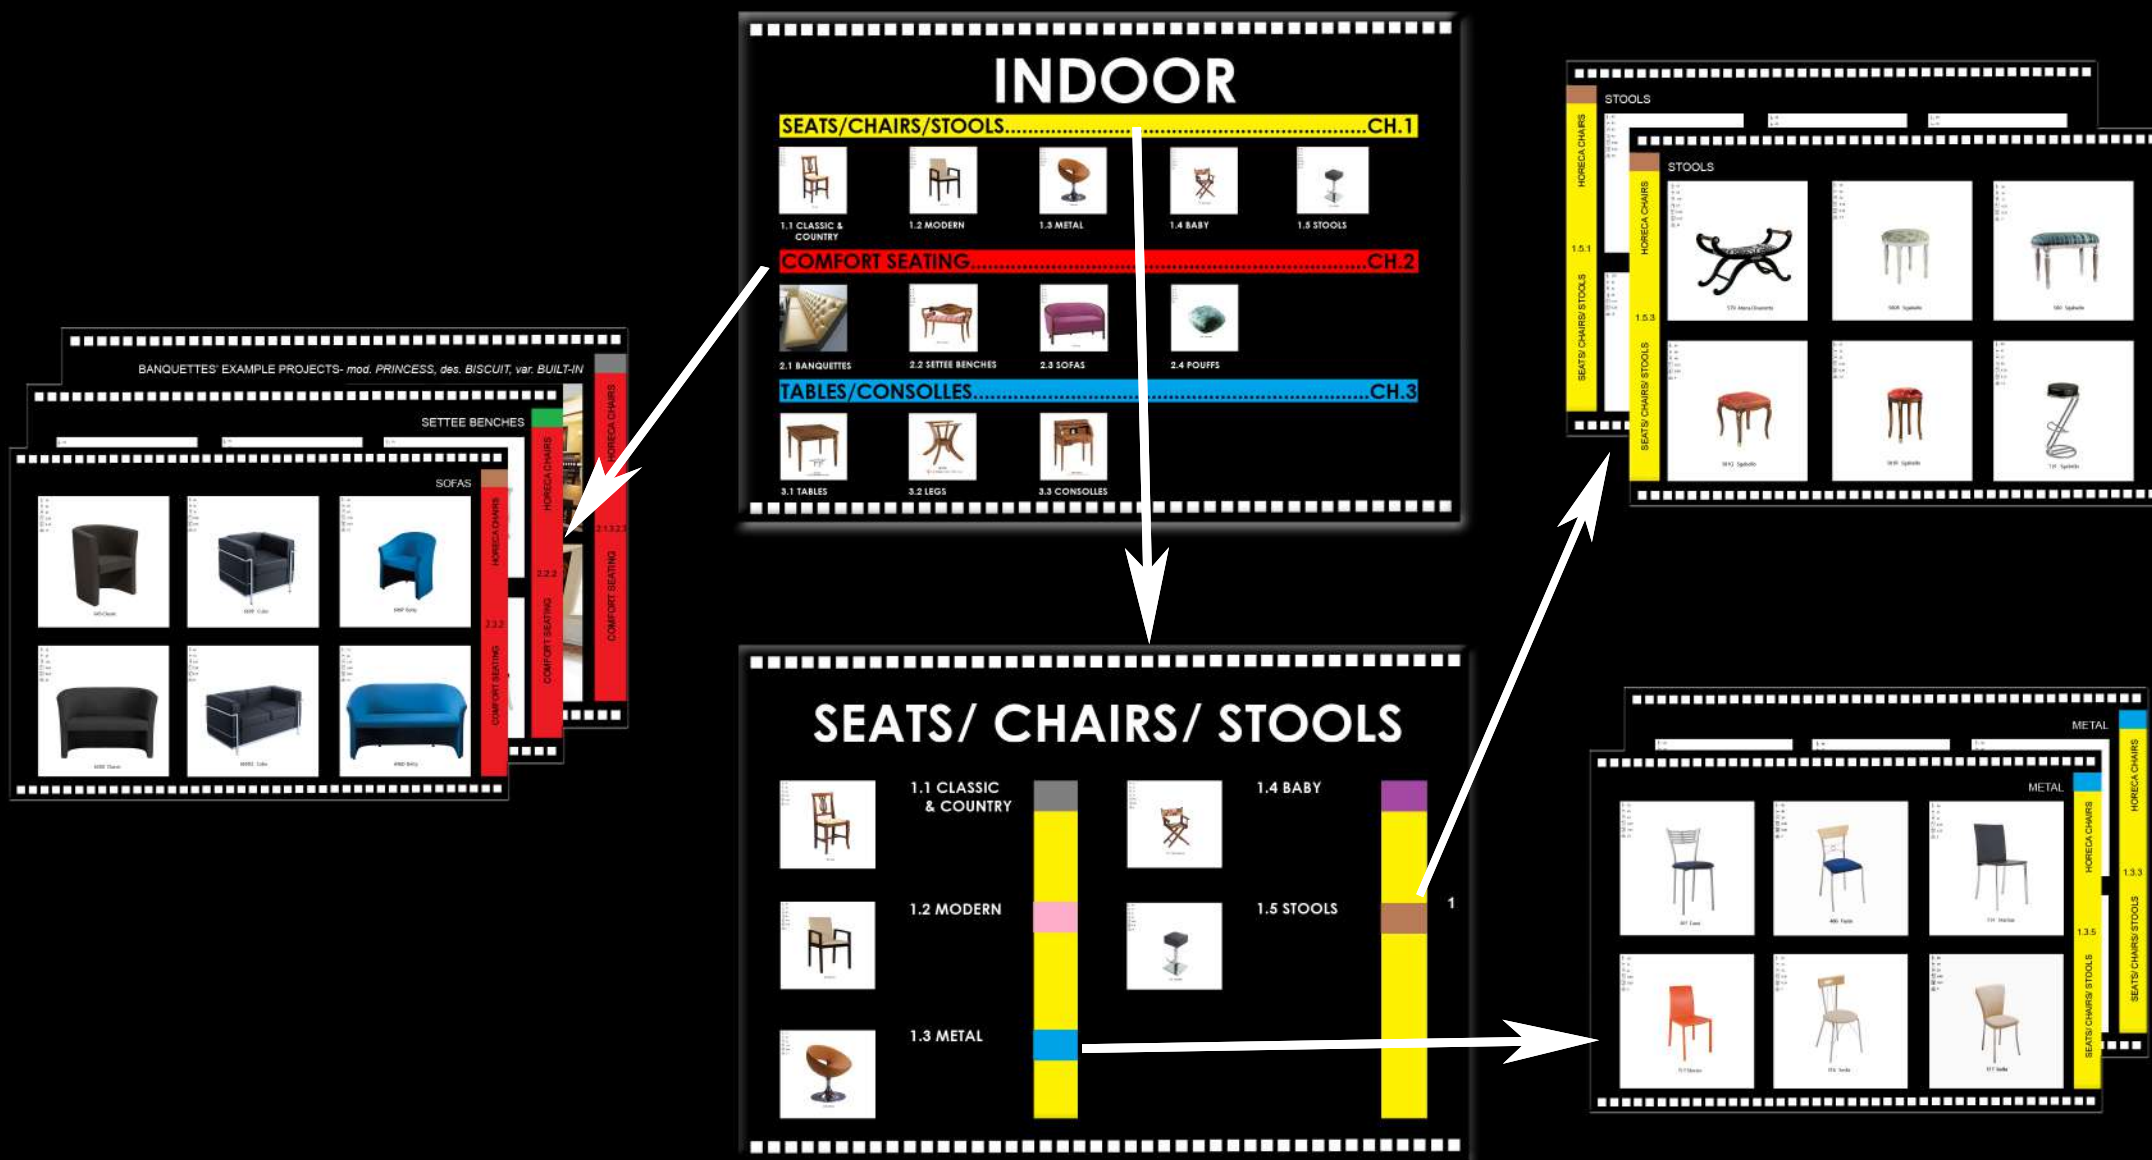

To make things even easier for you, each chapter also begins with a small index, dividing it for different colored subchapters, which are marked with a little rectangular at the corner of each page, and obviously also a number.

However complicated it may sound for now, when You start using it You will see that it's actually a very pleasant and intuitional system :)

## BANQUETTES- PRESENTATION

The banquettes presented in this catalog are only the example models. Each project can be fully adjusted to Your personal needs and requirements.

### HOW DOES IT WORK?

Main banquette designs are presented in chapter 2.1.2. Each of them shows the general conception of the benquette and comes in two different models: QUEEN (with a high backrest) and PRINCESS (with a low backrest) (go to pages 2.1.1.2 and 2.1.1.3 to see more details on the models)

After choosing the desing and model You may decide between a BUILT-IN and a FREESTANDING variance, depending on if You want a furniture to be permanently fixed in one specific place, or You would rather have a possibility to move it around. The difference will be mostly in the back finishing.

Chapter 2.1.3 shows the real pictures of some of our previous projects to help You visualize the conception and make Your decision easier.
